

Data Loss Risks

Remote Data Backups provides the best solution for safeguarding your computer against a full range of common data loss and system failure risks including:

✓ Technical Disasters

Computer viruses & worms, hard drive crash & failure, PC power failure, backup media degradation, system updates, service packs, etc.

✓ Human Disasters

Accidental changes or deletions, theft (especially laptops), disgruntled employees, etc.

✓ Natural Disasters

Fire, flood, hurricanes, tornadoes, earthquakes, lightning, solar flares, freaks of nature, etc.

✓ Laptop Disasters

Laptops can easily overheat, suffer hard drive failures or power outages, and are frequently dropped and damaged, lost and stolen.

Traditional backup methods such as Tape, Zip and External Drives, CDs and DVDs, can't reliably protect your data against all these common data loss risks!

Files to Protect

You need to back up your mission critical files daily. Can you afford to lose your financial and accounting files, sales records, contacts, email messages, etc.?

Service Advantages

Remote Data Backups is the most **cost effective, secure, and convenient** way to automatically back up your mission critical data offsite every night.

Enjoy peace of mind knowing that if the unexpected happens, your data is safe and secure offsite at our two state-of-the-art, mirrored data centers and always easily accessible to you, 24/7.

✓ It's Easy

Simple to set up, back up & restore files – the perfect solution for non-technical users;

✓ It's Automated

Nightly backups run reliably with no human intervention, saves your staff's time;

✓ It's Fast

Delta block incremental backup transmits only changes -- even works on dial-up connections;

✓ It's Secure

Transmitted and stored using government-level 128-bit AES encryption through Secure Socket Layer (SSL) at our two mirrored data centers with EMC storage machines, redundant power and bandwidth, and top-level physical security;

✓ It's Offsite

Protects your data from viruses, fire, flood, sabotage & theft, with 99.99% historic availability since 2000;

✓ Free 24/7 Support

No extra charges for fast, friendly & expert support; restores, bandwidth usage, etc.

✓ Free 30-Day Trial

No credit card required to start using the service unrestricted – start safeguarding your data today!

What would you do if you suddenly lost your data?

How much would it cost to recover your data?

Would your business be able to survive?

Software Features

Easy System Restore*

**Available on 10 & 30 GB plans*

Restore your operating system to a previous good state with just a few clicks. This unique and powerful feature more than pays for itself the very first time you need to use it.

ROI: Save Time & Money!

Our award-winning backup software is designed to **save you time and money**, significantly increasing your productivity and efficiency while minimizing costly data loss & downtime.

Automatic File Backup

Schedule backups to run every night, so you never have to remember to back up.

Easy File Restores

Non-techies can quickly and easily retrieve lost or corrupted data files in minutes.

Remote File Access*

Convenient online access to your data files from any computer with Internet access.

10 File, 90 Day Rollback

"Go back in time" up to 10 versions of any backed up file, or for up to 90 days.

Extended Archiving

We archive all files deleted off your system, by accident or deliberately, for 90 days.

Account & File Sharing

Access and share files among computers running the Remote Data Backup software.

** Unavailable on 100 MB plan*

Client Testimonials

"A life saver! We wound up reformatting our drive after faulty information from a major computer manufacturer. RDB had us up and running overnight. We were able to save all our client files."

— John Reggio, Sign-A-Rama of Old Bridge, NJ

"RDB saved me a bunch of headaches by being able to restore the system configuration of a few days back in 10 minutes after installing something that didn't agree with my computer."

— TJ Bass, Handyman Matters of Round Rock, TX

"A new employee managed to change a large amount of records in the database accidentally with incorrect info. Luckily for us they store the last 10 versions."

— Jason Webber, Help-U-Sell of Castle Rock, CO

"It is much more cost effective and reliable than manually using tape, zip, Jazz, CD or DVD drives."

— Dan Harrison, IS Manager, Budget Blinds HQ

"Without this system I would have spent countless hours, perhaps days, putting my business life back together... it's worth every penny."

— Ken Thompson, AIA - San Joaquin, CA

"No longer do we have to hassle with the daily tape back up and weekly cleaning of the tape drive."

— Steven Bejarano, Handyman Connection of Detroit, MI

"I highly recommend it for its ease of use, flexibility, and the ability to access backed up files from any computer with Internet access."

— Rodney Givens, CFO Today of Tallahassee, FL

Superior Data Security

Hard Drive Crashes • Viruses • Hackers
Fire • Flood • Natural Disasters • Data Corruption
Theft • Human Error • Disgruntled Employees
