

Why You Need Remote Data Backups

Remote Data Backups, Inc. provides the best solution for safeguarding your computer against a full range of common data loss and system failure risks including:

- ✓ **Technical Disasters:** Viruses, worms, file corruption, hard drive crash & failure, PC power failure, backup media degradation, system updates, service packs, etc.
- ✓ **Human Disasters:** Accidental or deliberate changes, deletions or overwritten files, theft (especially laptops), disgruntled employees, spilled water, magnetic charges, etc.
- ✓ **Natural Disasters:** Fire, flood, hurricanes, earthquakes, lightning, solar flares, etc.
- ✓ **Laptop Disasters:** Laptops can easily overheat, suffer hard drive failures or power outages, and are frequently dropped and damaged, lost and stolen.

Traditional backup methods such as Tape, Zip and External Drives, CDs and DVDs, can't reliably protect your data against all these common data loss risks – only Remote Data Backups can!

Backup Service Advantages

Remote Data Backups is the most **cost effective, secure, and convenient** way to automatically back up your mission critical data offsite every night.

Enjoy peace of mind knowing that if the unexpected happens, your data is safe and secure offsite at our two state-of-the-art, mirrored data centers and always easily accessible to you, 24/7.

- ✓ **It's Easy:** Simple to set up, back up & restore files – ideal for non-technical users;
- ✓ **It's Automated:** Nightly backups run reliably without effort – saves your staff's time;
- ✓ **It's Fast:** Delta block incremental backups transmit only changes – even works on dial-up;
- ✓ **It's Secure:** Your data is transmitted and stored using 128-bit AES encryption through Secure Socket Layer (SSL) at our two mirrored data centers featuring EMC storage machines, redundant power and bandwidth, top-level physical security and 99.99% historic availability;
- ✓ **It's Offsite:** Protects your data from viruses, fire, flood, theft, and sabotage

Backup Software Features

Our award-winning backup software is designed to **save you time and money**, significantly increasing your productivity and efficiency while minimizing costly data loss and downtime.

-  **Easy System Restore** *(available on 10 & 30 GB plans)*
Restore your operating system to a previous good state with just a few clicks. This unique and powerful feature more than pays for itself the very first time you need to use it.
-  **Automatic File Backup**
Schedule backups to run every night, so you never have to remember to back up.
-  **Easy File Restores**
Non-techies can quickly and easily retrieve lost or corrupted data files in minutes.
-  **Remote File Access**
Convenient online access to your data files from any computer with Internet access.
-  **10 File, 90 Day Rollback**
"Go back in time" up to 10 versions of any backed up file, or for up to 90 days.
-  **Extended Archiving**
We archive all files deleted off your system, by accident or deliberately, for 90 days.
-  **Account & File Sharing**
Access and share files among computers running the Remote Data Backup software.

FROM OUR CLIENTS

"A life saver! We wound up reformatting our drive after faulty information from a major computer manufacturer. RDB had us up and running overnight. We were able to save all our client files."
John Reggio, Sign-A-Rama of Old Bridge, NJ
